

KING GLOBAL

X-TREM MULTI-ACTION 1-2-3

KING GLOBAL'S MANURE AND PURIN TRUE LIQUIFIER

Also useful for the decomposition of bark and other forms of organic matters manures.

ACTIONS:

X-TREM Multi-Action 1-2-3 accelerates the homogenization of manure of poultries, farms animals and cattle.

X-TREM Multi-Action 1-2-3 helps manures, composts and barks to rot faster! X-TREM Multi-Action 1-2-3 also decomposes all and any undesirable seeds in the manures so you don't get extra weeds when you spread the liquefied manure in the field.

X-TREM Multi-Action 1-2-3, WHEN ADDED TO THE HOLDING TANK

- Stimulates the reduction of ammonia fumes and hydrogen sulphides which in turn significantly HELPS REDUCING odors.
- Increases the fertilization values of your manures.
- Preserves the health and welfare of your animals.
- Decreases the accumulations of solid materials.
- Improves liquefaction and homogenisation of your manures through a better degradation of solid particles.
- Simplifies the handling of manures, purins and barks.
- Decomposes all solids, including undesirable seeds.
- Reduces tip burns on plants and destruction of soil organisms during application.
- Improves plant growth.
- Significantly helps reduce the consumption of external thus significantly reducing the workload.

- Improve the supply of nitrogen in your fields.

X - TREM MULTI ACTION 1-2-3 is absolutely safe for humans, animals, plants or waterways.

X - TREM MULTI ACTION 1-2-3 is a fortifying product that is purely biological produced from REVITALISED HOMEOPATHIC FORMULAS.

X - TREM MULTI ACTION 1-2-3 strengthens, increases and sustains micro-organisms contained in manures.

X - TREM MULTI ACTION 1-2-3 aids in stimulating bacteria, leading to increased cell division of aerobic and anaerobic bacteria crucial for the homogenization of manure and nitrogen. Releasing the nutritious elements with its process of rapid mineralization, **X - TREM MULTI ACTION 1-2-3** makes them available to the plants. By doing so, the fixation of nitrogen by soil bacteria is facilitated and the risk of leaching will decrease.

X-TREM MULTI ACTION 1-2-3 decomposes all solids including undesirable seeds who are apt to produce weeds.

X - TREM MULTI ACTION 1-2-3 significantly reduces ammonia fumes and hydrogen sulphide which in turn reduces odors.

COMPOSITION:

Nitrogen, Phosphorus, Potassium, Calcium, Magnesium, Sodium, Copper, Iron, Boron, Zinc, Aluminum, Molybdenum, Selenium, Chromium, Cobalt, Silicon (SiO₄), Nickel, Bromine, Cadmium, Carbon, Antimony, silver, purely biological produced from REVITALISED HOMEOPATHIC FORMULAS.

APPLICATION:

4 GALLONS IN WARM WATER FOR 2 MILLION GALLONS OF MANURE IN HOLDING TANK.
