

X-TREM SUPER GREEN-24%

100% ORGANIC

X-TREM SUPER GREEN-24% is a liquid fertilizer with a content of 24% humic and fulvic acids products with minimum impurities.

X-TREM SUPER GREEN-24% is 100% naturally organic.

X-TREM SUPER GREEN-24% may be used as a soil amendment, foliar spray or fertilizer enhancer.

X-TREM SUPER GREEN-24% is ideal for use on all soils and plants under all conditions.

X-TREM SUPER GREEN-24% causes plants and roots to absorb these humic acid-nutrient compounds effectively increasing the efficiency of plants' uptake of nutrients and decreasing nutrient losses caused by leaching.

X-TREM SUPER GREEN-24%, allows you to get the most out of your fertilization program and may even reduce the amount of nutrients applied while breaking down clay lattices and reducing sodium built up in soils.

X-Trem Super Green-24% will perform similarly to the plant growth hormone Auxin, which promotes plant growth and root development, and results in improved plant health and production of fruits and vegetables. It will also increase and enhance microbial activity aiding in the maintenance of healthy soils.

X-TREM SUPER GREEN-24% is great for fall residue breakdown.

X-TREM SUPER GREEN-24% is a fast acting product.

X-TREM SUPER GREEN-24% is great for both foliar and soil application.

X-TREM SUPER GREEN-24% is easy to mix with Other products.

Technical Data
